1800Mbps
Wireless AX
5G(NSA,SA)
LTE(FDD,TDD)
3G Modem Router

Model:X5PRO

Stand-Alone (SA) & Non- Stand-Alone(SA)
The simplest way for wireless data communication via 4G or 5G new radio Backhaul

Home and Office Multiuser
Up to 32 Users are able to connect and transferring data over cellular networks.

All in one
Provides all recent cellular technologies in one device.

Use Cases

In today's world, seamless, high-speed connectivity is indispensable, and ensuring consistent access for everyone remains paramount. The UTEL sets the benchmark for reliable, lightning-fast broadband connectivity, guaranteeing uninterrupted operations even when traditional wired connections face unexpected disruptions. Leveraging the power of the UTEL X5Pro for broadband access delivers unparalleled speed, combined with the flexibility and mobility to adapt to diverse settings. Setting up the UTEL X5Pro is a breeze, requiring less than a minute for installation (Zero Touch) just by inserting a sim card. Supporting all recent technologies from 5G(SA, NSA), LTE(FDD, TDD), and 3G provides a strong and robust connection, making it an optimal choice for various conditions from congested urban to rural areas, outdoor environments, and areas lacking wired connectivity. Its versatility spans across a multitude of applications:
• Providing 5G WAN backup for seamless business continuity
• Acting as a primary or interim solution for fixed-line services
• Serving as the crucial last-mile connection
• Powering mobile establishments such as food trucks with consistent connectivity
• Enabling wire-free connections for kiosks in any location
• Offering high-speed internet access for vacation cabins or rural homes, transforming the remote experience.

مخصوص مصارف خانگی و مشاغل کوچک

این مودم از آخرین فناوری شبکه‌ی موبایل نسل پنجم 5G بهره می‌برد و به کاربران اینترنت بی‌سیم با سرعت‌های چشمگیری تا 2.4 گیگابیت بر ثانیه ارائه می‌دهد. این مودم بهبودهای چشمگیری از جمله حذف محدودیت‌های سرعت، افزایش قابلیت حمل و نقل، و افزایش ظرفیت ارتباط بی سیم را به ارمغان می‌آورد. این مودم قابلیت اتصال همزمان 32 کاربر را با استفاده از فناوری Wi–Fi با سرعت 1800 مگابیت بر ثانیه را داراست، دارای چهار پورت LAN با سرعت 1 گیگابیت بر ثانیه است که یکی از آنها قابلیت استفاده به عنوان پورت WAN را دارد. این پورت ها این امکان را ایجاد می‌کنند که کاربران از طریق رابط کاربری تحت وب، تنظیمات پیشرفته مودم را انجام دهند و از ارتباط امن با استفاده از این مودم بهره‌مند شوند.

4 LAN Ports

Highlights

• Simple 5G/4G/3G connectivity solution
• 5G SA/NSA speed up to 2400Mbps download and 1000Mbps upload
• 4G LTE FDD/TDD speed up to 1000Mbps download and 200Mbps upload
• Manage settings via a browser-based web UI

Overview

The UTEL X5Pro offers a seamless 5G connectivity solution for your devices, ensuring uninterrupted broadband access even if the wired connection faces disruptions. Simply link this modem to your router, switch, or computer to establish an automatic backup connection through 5G or 4G/3G, delivering remarkable download speeds of up to 2.4Gbps. Featuring a Gigabit Ethernet WAN port, it allows effortless integration with your wireless router, enabling you to share this high-speed connection across all your Wi-Fi and wired devices. Additionally, the UTEL X5Pro boasts a compact design, convenience, and a straightforward setup process.

Package Contents

• 5G Modem (X5Pro)
• Power adapter
• Ethernet cable
• Quick start guide
• Warranty Card

Specifications

• Dimensions:
  118x118x192mm (max thickness)
• Weight: 600g

Interface

• 1x Ethernet GE WAN/LAN port
• 3 x Ethernet GE LAN port
• 1x FXS Port (Supports VoNR, VoLTE, and VoIP.)
• 2x Internal WLAN antennas (2.4/5.8GHz)
• 2x Internal LTE antenna (FDD)
• 4x Internal 5G antenna (5G NSA/SA, TDD)
• Standard SIM card slot.

LEDs

• Power
• WLAN
• 5G Signal / 4G Signal indicator
• Signal strength indicator (LED color)
• WLAN

Power Adapter

• 12V DC, 2A

Key Features

• 1800Mbps WAN connection for flexible home and office connectivity.

• Fast 5G/LTE backup speed up to 2400Mbps for downloads and 1000Mbps for uploads

• Support SMS.

• TR-069 for remote management

• 5G NR antenna MIMO 4*4

• LTE antenna MIMO 2*2

• Wi-Fi antenna MIMO 2*2

• Manage settings via a browser-based web UI

• LEDs on device to check network status instantly
